# Chat with MySQL

Hello! I'm a SQL assistant. Ask me anything about your database.

how many artists are there?

There are a total of 275 artists in the database.

which 3 artists have the most albums?

The three artists with the most albums in the database are as follows:

1. The artist with the ID of 90 has the highest number of albums, totaling 21.
2. Following them, the artist with the ID of 22 has 14 albums.
3. Lastly, the artist with the ID of 58 has 11 albums.

These counts represent the top three artists in terms of the number of albums they have in the database.

which artist names correspond to those ids?

The artist names corresponding to the IDs you asked about are as follows:

- The artist with the ID of 90 is Led Zeppelin.
- The artist with the ID of 22 is Deep Purple.
- The artist with the ID of 58 is Iron Maiden.

These artists are the ones with the most albums in the database: Led Zeppelin has the highest number of albums, followed by Deep Purple, and then Iron Maiden.

could i get their most popular songs?

Based on the information from the database, the most popular songs from the artists with the most albums are:

- For Iron Maiden, "The Trooper" and "The Number Of The Beast" are their most popular songs, with "The Trooper" selling 5 units and "The Number Of The Beast" selling 4 units.
- Led Zeppelin's most popular song is "Dazed and Confused," which also sold 5 units.

These results highlight the top songs from Iron Maiden and Led Zeppelin based on their sales figures from the database.

what about deep purple

Deep Purple's most popular song, according to the database sales figures, is "Stormbringer." This song has sold a total of 2 units, making it the top-selling track for Deep Purple in the database.
