🤖 Hello! I'm a SQL assistant. Ask me anything about your database.

🙂 how many artists are there?

There are a total of 275 artists in the database.

which 3 have the most albums?

The three artists with the most albums in the database are Iron Maiden with 21 albums, Led Zeppelin with 14 albums, and Deep Purple with 11 albums.

could i get their most popular album?

Based on the information from our database, the most popular album among the three artists with the most albums—Iron Maiden, Led Zeppelin, and Deep Purple—is "The X Factor" by Iron Maiden. This album has the highest number of sales, with a total of 11 sales tracked.

what about the other two

The most popular album for the other two artists, based on sales, is "Led Zeppelin I" by Led Zeppelin, with a total of 9 sales tracked. This information highlights "Led Zeppelin I" as the standout album for Led Zeppelin in terms of sales in our database.

the final one

The most popular album for Deep Purple, based on sales in our database, is "The Battle Rages On." This album has a total of 5 sales tracked, making it the standout album for Deep Purple in terms of sales.
